

DURAPAD™

Pole Puller Pads

PRODUCT SPECIFICATIONS

Description: Designed for use underneath a hydraulic jack when pulling out power poles. Prevents jack from sinking into the ground. Superior alternative to plywood.

Traction Surface: Innovative anti-slip surface is roughed to maximize surface grip, even in rain or snow.

Standard Sizes: 19" x 24" x 2". Other thicknesses available.

Color: Black and Yellow. Custom colors available.

Material: Manufactured from UHMW – an industrial-grade plastic composite that is impervious to exposure (material will not break down from prolonged use). DuraPad Pole Puller Pads will not absorb chemicals, oil or moisture.

Weight Loading: 60,000 lbs

Features:

- Lightweight Design.
- 3/16" fluorescent aircraft grade galvanized wire rope handle bolted into the thickness of the pad to provide easy removal along with durability.
- Some flex to conform to ground contours without breaking or cracking.
- Rounded edges for easy removal from soft ground conditions

Warranty: Limited Lifetime Warranty
